FYI, I check in with the Emergency Response folks and made sure it was ok to forward our all hands update on Gold King to HQ. That was fine with them. I'll keep updating these folks so they don't have to ask. Anyone else I should include?

Subject: FW: Gold King Mine Incident Update

Hi Wendy, here's updated information that came out last evening on the Animas response. This may help you all respond to questions from management and others at HQ. I'll continue to keep you in the loop as updates arrive. The R8 Water Quality Unit staff are supporting data assessment efforts as well.

Thanks,

Sandie
